**!!Do not bring any non-medical electronics other than a phone!!** Phones can be used for calling home or texting home. Phones are not to be used for social media while on this trip. Phones may not be used for playing videos or music on this trip. Phones are to be turned off and put away during event sessions and at the church. I do not want phones to be a distraction nor dictate our interactions. Think of the phone as a device that calls and texts rather than a social media and entertainment device.
